For the past several years, investors and regulators at the Securities and Exchange Commission have focused on fee and expense issues in private markets.

With attempts to shed light on these issues and provide GPs with a benchmark, Private Funds CFO has again partnered with Troutman Pepper Locke for this year's edition of the *Private Funds CFO Fees and Expenses Survey*. Troutman has helped spearhead this survey since its inception in 2014.

The survey should take approximately 10 to 15 minutes. In return for your time, PEI will send you a complimentary copy of the *Private Funds CFO Fees and Expenses Report 2026*, to be published in June.

Your submission will remain entirely confidential, and all submitted data is anonymized.
