Practical Guidance for Navigating Generative AI Ethics and Risk

Zoom

SPEAKERS

Alison A. Grounds | David M. Stauss | Jessica Kozlov Davis | Jennifer M. Doran

---

Please join Alison Grounds, David Stauss, Jessica Davis, and Jennifer Doran for a discussion on the ethical and compliant use of Generative AI, including how ethics rules, privacy laws, and court obligations intersect with these tools. The speakers will address real-world sanctions and discovery risks arising from AI-generated content and share strategies to mitigate those risks, including human verification and appropriate workflows. They will also cover court requirements related to generative AI declarations and certifications, client expectations and "no GenAI" directives, and how to manage RFIs and client-facing messaging about AI use.
