October 20 – 21, 2025

Troutman Pepper Locke is honored to sponsor The Private Credit Sourcing Conference.

About the Conference:

With over \$600 billion in undeployed capital, the private credit market is booming — but sourcing high-quality deals remains a challenge. The Private Credit Sourcing Conference is the only event dedicated to solving that challenge. This conference brings together lenders, borrowers, and advisors for a technical program focused on deal origination, underwriting, and execution — alongside a robust networking experience built to deliver transaction opportunities.
