**Tuesday, May 4 • 12:00 – 1:00 p.m. ET**

This webinar focuses on recent developments in data privacy legislation and regulation. It will include an overview of the Biden Administration's priorities, action on Capitol Hill concerning a comprehensive data privacy law, and developments at the state level. The webinar will also address the depth state regulators have already taken to regulate in this area, and which regulators are likely to become key players regardless of whether a comprehensive federal data privacy law is enacted.
