Recent Developments in Data Security and E-Discovery 2021

SPEAKERS

[James H. S. Levine](#)

Wednesday, December 15 • 10:45 a.m. – 12:45 p.m. ET

James Levine will be speaking on a panel at “Recent Developments in Data Security and E-Discovery 2021,” sponsored by the E-Discovery and Technology Section of the Delaware State Bar Association.

Recent Developments in E-Discovery

Come join this panel in discussing substantive developments in e-Discovery, as well as the potential impact of some “ripped from the headlines” discovery abuse stories, including:

- What happens when lawyers “slip” discovery documents into a database without timely notifying opposing counsel?
- Is the frequency of severe discovery abuse increasing, and what is the impact on lawyers and their clients?
- What’s the latest guidance from Delaware courts on discovery protocols and discovery objections?
- What are the most updated best practices from the Sedona Conference, and how might they affect your practice?

This panel will get you up-to-date with the latest e-Discovery developments, including recent court decisions and pending rule changes.
