Regulating AI: AGs Balance Consumer Protection With Innovation

WRITTEN BY

Michael Yaghi | Whitney L. Shephard

Published in [The Legal Industry Reviews](#) on March 30, 2023. Reprinted here with permission

Artificial intelligence (AI) is everywhere, and it is increasingly used to make decisions that directly impact consumers in many ways — predicting events and outcomes, executing contracts, transporting goods, and even assisting doctors and patients in clinical decision-making. As an enormous boost to both productivity and accuracy, AI can potentially improve our economy and the quality of life of consumers.
