When you think about electric vehicles (EV), the first thing that comes to mind is the brand name vehicle out on the road. But batteries are being used for more than just everyday EVs — and Electrovaya is working to make them safer and longer lasting.

Listen in as host Bill Derasmo and his guest Electrovaya CEO Dr. Raj Dasgupta discuss innovations in the EV space, from ceramic separators to electric industrial vehicles operating 24 hours a day inside of distribution centers for many Fortune 500 companies.
