Session 1: American Democracy and the Rule of Law

A Lawyer's Role in Protecting the Rule of Law, Civil Discourse, and Election Integrity: A 3-Part CLE Series

Thursday, July 25 • 12:00 – 1:00 p.m. ET

Troutman Pepper and the ABA Task Force for American Democracy are thrilled to co-sponsor a 3-part CLE series that will explore a lawyer's unique role in supporting fundamental elements of American democracy. Esteemed panelists will discuss (1) the rule of law? (2) civil discourse? and (3) election integrity. We hope you will join us for all 3 sessions.

This session is designed specifically to engage young lawyers in recognizing their crucial role in the preservation of democracy and the rule of law and to provide a blueprint for involvement. The program will: explore the current risks to American democracy and the rule of law; highlight the duty lawyers have to defend these principles; understand the unique challenges many communities are facing at this time in our history, including Native Americans; and provide tools for attendees to return to their communities better informed, inspired, and energized to become ambassadors for democracy and the rule of law.
