Dallas

Brad Weber will serve as a panelist at SMU Science & Technology Law Review's Artificial Intelligence, Law, Ethics and Policy Symposium on Friday, February 23, 2024. Brad's panel, AI In the Legal Profession, is from 3:30pm – 4:30pm.

SMU Science & Technology Law Review, with support of the Tsai Center for Law, Science and Innovation at SMU Dedman School of Law, invites you to our annual symposium. This symposium will focus on artificial intelligence and how it relates to topics such as generative AI, data privacy & cybersecurity, copyright & trademark use, and AI in the legal profession. Through the symposium we aim to provide a platform that brings together esteemed scholars, experienced practitioners, and accomplished computer programmers, all with expertise in artificial intelligence and machine learning.
