State AGs' Continued Focus on Enforcement – With or Without AI Legislation

SPEAKERS

[Stephen C. Piepgrass](#) | [Brett Mason](#) | [Christopher Carlson](#) | [Samuel E. "Gene" Fishel](#)

In this crossover episode of *The Good Bot* and *Regulatory Oversight*, Brett Mason, Gene Fishel, and Chris Carlson discuss the latest state laws targeting AI, especially in health care. They break down new legislation in Colorado, Utah, California, and Texas, highlighting differences in scope and enforcement. They also cover how state attorneys general are using consumer protection and anti-discrimination laws to regulate AI, even in states without AI-specific statutes.
