

State Attorneys General Association Meetings

Members of Troutman Pepper's State Attorneys General team have actively participated in Attorney General meetings for decades, attending events held by the National Association of Attorneys General (NAAG), Conference of Western Attorneys General (CWAG)/Attorney General Alliance (AGA), Democratic Attorneys General Association (DAGA) and Republican Attorneys General Association (RAGA).

Our presence at these meetings is key to developing and maintaining open lines of communication with State AGs and their staff attorneys. At these meetings, we focus on developing relationships with key decision-makers and gaining insight into regulatory and policy priorities that affect our clients' business and legal strategies. AG Association events are a valuable forum for communicating directly with attorneys general about specific client concerns and proactively identifying emerging regulatory and enforcement trends.

A listing of upcoming and past events can be found below.
