Thursday, July 24 • 12:30 – 4:30 p.m. CT

This half-day CLE event will highlight emerging state regulations poised to affect companies in the consumer financial services industry. Key topics include the implications of state AI laws on business operations, UDAP concerns with a focus on small business lending and quasi-credit, and privacy initiatives spearheaded by the state Attorney General consortium. Additionally, the event will address fair lending activities and the increasing involvement of states in this area, while also exploring regulatory issues related to point-of-sale finance.
