Craig Kline, a partner in Troutman Pepper Locke's Energy Industry Group, was quoted in the July 14, 2025 *New Project Media* article, "[Storage: Developers Pushing Forward US Plans Despite Complex FEOC Requirements.](#)"

With so many high stakes calculations and regulations, including higher requirements for storage projects and a lack of clarification on key components like which contracts trigger the "effective control" definition, Troutman Pepper Locke Partner Craig Kline expects an "uptick in folks' desire to close projects sooner rather than later given uncertainties and the risk of additional executive orders."

"I don't think the overall market will slow down in the near-term," Kline said.
