The Role of General Counsel in Advising Boards of Directors on the Use of AI

The Consumer Finance Podcast

SPEAKERS

[Shannon VanVleet Patterson](#) | [Chris J. Willis](#)

Join Troutman Pepper Partner Chris Willis and Counsel Shannon Patterson as they discuss the top issues a company's board of directors needs to consider regarding the use of artificial intelligence (AI) in its business. Shannon specializes in advising companies on board and management governance issues, particularly publicly traded companies, to ensure that boards are well-informed of their responsibilities. In this episode, Shannon offers valuable insights on how a company's general counsel can support its board in integrating principles of good governance for the responsible and effective use of AI.
