**BOSTON** – Troutman Pepper client Apnimed, Inc., a clinical-stage pharmaceutical company focused on developing oral pharmacologic therapies for the treatment of obstructive sleep apnea (OSA) and other sleep disorders, announced a new joint venture with Shionogi & Co., Ltd., a leading global research-driven pharmaceutical company based in Japan, to develop novel pharmacologic therapies to treat OSA and other sleep disorders. Shionogi also made an equity investment in Apnimed. [Read a company press release about the joint venture.](#)

Apnimed is a clinical-stage pharmaceutical company working to transform the treatment of sleep apnea based on a simple idea – patients with obstructive sleep apnea could benefit from treatment with a safe and effective oral medication dosed once daily at bedtime. Apnimed's lead development program targets the neurologic control of upper airway muscles to maintain an open airway during sleep.

The newly formed joint venture, Shionogi-Apnimed Sleep Science, LLC, initially focuses on accelerating the discovery, preclinical and clinical development of novel pharmacologic solutions designed to address the complex pathology of OSA. Shionogi-Apnimed Sleep Science combines Apnimed's knowledge of OSA, highly experienced clinical-stage drug development team and robust network of sleep medicine clinical sites with Shionogi's highly efficient small molecule drug discovery engine and proven ability to create best-in-class compounds.
