NEW YORK – Troutman Pepper client Tectonic Engineering Consultants, Geologists & Land Surveyors, D.P.C. and its affiliates recently announced an investment by Good Springs Capital LP, a private investment firm focused on partnering with founders, families, and entrepreneurial management teams in the industrial and services sectors. [Read a company press release about the investment.](#)

Headquartered in Mountainville, New York, Tectonic is a leading multi-disciplined engineering firm focused on the transportation, telecommunications, energy, and water infrastructure end markets. The company's comprehensive offerings, which include engineering and design, environmental and regulatory permitting, construction management, special inspections and materials testing, and surveying, allow it to support public and private sector clients throughout the project lifecycle. With multiple offices and two in-house material testing laboratories, Tectonic employs over 500 professionals comprised of civil, environmental, geotechnical, and structural engineers as well as construction managers, inspectors, geologists, planners, scientists, and surveyors.

The Troutman Pepper team advising Tectonic Engineering was led by [James Rosener](#), and included [Nanette Heide](#) (Corporate), [Thomas Gray](#) (Tax & Benefits), [Paul Porretta](#) (Tax & Benefits), [David Wormser](#) (Corporate), [Samantha Peruto](#) (Corporate), [Karina Miranda](#) (Corporate), and [Matthew Ramsey](#) (Corporate).

Consistently recognized as a top-tier national practice, Troutman Pepper's corporate attorneys regularly handle multimillion- and multibillion-dollar transactions. Core areas of service include capital markets transactions and other significant domestic and cross-border transactions, mergers and acquisitions, corporate governance, securities laws compliance, and corporate finance. The firm has particular expertise in the private equity and private fund services space, advising clients on matters from fund formation to investments and exit transactions.
