NEW YORK – Troutman Pepper advised in more than 35 mergers and acquisitions in Q2 2021, with an overall deal value totaling more than \$6.8 billion. Transactions spanned across the United States with a handful of cross-border deals, including in Canada and the U.K. Completed private equity-related transactions had an overall deal value totaling nearly \$1 billion.

“Q2’s overall M&A activity built on the momentum from Q1, leading to the [highest-ever deal value and volume](#) for a first half of the year,” said Partner Matt Greenberg, who leads the firm’s Corporate Practice Group. “We expect this trend to continue as rates remain low for attractive borrowing and market confidence stays high.”

Troutman Pepper’s Q2 performance resulted in higher rankings in the M&A league table rankings published by Refinitiv, a data analytics provider, Bloomberg, and The Deal, improving its position in multiple categories. Q2 rankings:
