Over the last five weeks, Troutman Pepper's Cybersecurity, Information Governance, and Privacy team produced a series of articles on the new Virginia Consumer Data Protection Act (CDPA). The five-part series provides a detailed overview of the Virginia CDPA, and how it compares to California's approach to privacy under the California Consumer Privacy Act, which was later amended by the California Privacy Rights Act.

The series is divided into the following parts:

1. Introduction and Overview
2. Consumer Rights
3. Notice and Disclosure Obligations
4. Data Processing Obligations
5. Enforcement

To access the entire series, please click [here](#).

On April 15, Troutman Pepper will host the webinar, "Operationalizing the Virginia Consumer Data Protection Act: Leveraging Lessons From the CCPA," where we will summarize the series and provide further discussion on Virginia's CDPA. To register, please click [here](#).
