Friday, September 29 • 1:00 – 2:30 p.m. ET

This webinar details the Consumer Financial Protection Bureau's (CFPB) wide-ranging rulemaking plan under the Fair Credit Reporting Act (FCRA) that would dramatically impact the entire consumer data ecosystem by extending FCRA regulation to more businesses and imposing stricter rules for those covered by the FCRA. This presentation will discuss possible impacts for data brokers & data aggregators; consumer reporting agencies; furnishers; and users.
