Chad is an accomplished trial attorney who helps clients resolve their complex disputes. With extensive trial to verdict experience throughout the U.S., clients trust him to create strategies that help to mitigate liability while serving their business goals.

### OVERVIEW

Chad is a versatile litigator whose practice spans the managed care and financial services sectors, defending insurers, managed care organizations, and financial services clients in single-plaintiff and multidistrict matters. He serves as lead trial counsel in complex managed health care litigation involving a variety of claims, including bad faith, breach of contract, improper billing, the Mental Health Parity Act (MHPA), and out-of-network issues. Chad also defends financial services clients against claims involving the myriad federal consumer protection statutes, especially the Telephone Consumer Protection Act (TCPA) and the Fair Debt Collection Practices Act (FDCPA).

Chad's effective and systematic approach to high stakes litigation is drawn from his experience managing hundreds of TCPA cases and an in-depth understanding of managed care litigation. By anticipating likely roadblocks and scenarios, he is able to proactively position clients throughout the course of a case.

As one of the few attorneys in the U.S. that tries TCPA cases to verdict, Chad is go-to counsel for financial services clients facing major consumer class action litigation. He is also experienced in cases alleging false advertising and product defects, as well as cases alleging the inappropriate charging of fees and services by a variety of businesses such as software, telecommunications, home warranty, insurance brokerage, and auto finance companies. Additionally, Chad defends clients in privacy and security litigation and advises on associated regulatory issues.

### REPRESENTATIVE MATTERS

#### Managed Care Representative Matters

- Successfully obtained dismissal with prejudice (at the pleadings stage) of a putative TCPA class action on behalf of a California-based medical group, in a matter in the Central District of California. The plaintiff alleged unlawful calls to her cellular phone, but the court granted the defendant's motion to dismiss, holding the communications fell within the FCC's "emergency purpose" exception because the calls were purposed to convey health- and safety-related information related to prior authorization requests from the intended recipients' physicians. The court confirmed the emergency purpose exception is broad and applies even when

a call reaches a wrong number. The case was dismissed without leave to amend.

- *ABC Services Group, Inc. v. Health Net of California, Inc., et. al.*, 8:19-cv-00243-DOC (C.D. Cal. June 13, 2022) – Obtained dismissal with prejudice of litigation against Anthem Blue Cross Life and Health Insurance Company, Anthem, Inc., Beacon Health Options, Inc., Beacon Health Strategies, LLC, ValueOptions Federal Services, Inc., and ValueOptions of California, Inc. The plaintiff sought to recover claims on behalf of a closed substance abuse treatment facility. The litigation was initially filed as individual lawsuits in state and federal court against 36 defendants, asserting state law and ERISA claims. The litigation was consolidated in the U.S. District Court for the Central District of California, which granted the defendants’ motion to dismiss the plaintiff’s first amended complaint. On appeal, the Ninth Circuit Court of Appeals affirmed the dismissal of the state law claims and remanded the ERISA claims to the district court, which dismissed the remaining ERISA claims for lack of standing and failure to cite specific plans and plan terms.
- Successfully represented Blue Cross Blue Shield of Georgia, Inc. (dba Anthem Blue Cross Blue Shield) in an ERISA § 1132(a) matter in the Central District of California. The plaintiff alleged Anthem improperly denied benefits relating to Proton Beam Radiation Therapy (PBRT) to treat his prostate cancer. The court confirmed that records evidenced Anthem’s reasonable review and proper reliance on its medical policies, guidelines, and literature, as required by the health benefits plan at issue, in denying the benefits at issue. The court further held that Anthem’s determination that the plaintiff’s PBRT treatment was not covered by the plan was not an abuse of discretion. As such, the court entered judgment in Anthem’s favor. *Loren Swearingen v. Westlake Health Care Plan, et. al.*, 2:20-cv-02052-MCS-JEM (C.D. Cal. August 24, 2021).
- Successfully represented Anthem, Inc. and Anthem UM Services, Inc. in an ERISA (§ § 1132(a)(1)(B) and 1132(a)(3)) putative class action matter in the Central District of California, and on the subsequent appeal to the Ninth Circuit, regarding denial of FDA-cleared, but investigational, peripheral nerve stimulation (PNS) treatment. The court held that plaintiff failed to adequately plead a provision of the plan that was breached, and importantly, that the medical policy was a part of the plan. *Marie Fortier v. Anthem, Inc. and Anthem UM Services, Inc.*, 2:20-cv-004952-MCS, (C.D. Cal. Dec. 12, 2020). The Ninth Circuit unanimously affirmed the District Court’s decision. *Marie Fortier v. - *Reese v. Anthem, Inc., et al.*, No. 17-07940 (E.D. La. Mar. 12, 2018) – Motion to Dismiss granted with prejudice in a TCPA putative class action relating to informational health care-related text messages.
