OVERVIEW

Eric is an associate in the firm's Construction practice. He represents clients in litigation and alternative dispute resolution proceedings involving a variety of projects, including trainset manufacturing, rail-mill construction, residential housing, energy efficiency upgrades, and solar farms. Eric also counsels and represents developers, owners, and general contractors in all phases of the construction process.

Prior to law school, Eric worked as a process engineering consultant for an engineering company, where he designed air pollution control systems for multiple industrial processes and served as a project engineer for a pharmaceutical demolition project.
