Korbin is an intellectual property associate in the firm's Atlanta office and uses his technical background to help clients with all areas of intellectual property law.

OVERVIEW

Korbin is an associate in the firm's Intellectual Property Group. He recently graduated from the University of Alabama School of Law where he completed both a J.D. and a LL.M. degree. While in law school, Korbin served as president of the Intellectual Property Law Society and was a member of the American Intellectual Property Law Association.

Prior to going to law school, Korbin worked as a systems engineer at a nuclear power facility where he gained invaluable experience working with complex electrical and mechanical systems. While completing his mechanical engineering degree, Korbin worked in the oil and aerospace industries helping to design and build automated machines and carbon composite aircraft structures.
