D 713.226.1366

### OVERVIEW

Rachael counsels clients in a broad range of regulatory and commercial matters, including energy generation and storage project development, mergers and acquisitions, and other transactions, with a focus on renewable energy and power generation projects.

Rachael also works on environmental matters involving wildlife and natural resource issues.

### REPRESENTATIVE MATTERS

- Advising on virtual, physical, and behind-the-meter power purchase agreements.
- Navigating permitting and compliance matters relating to Safe Drinking Water Act (SDWA) Underground Injection Control (UIC) wells in connection with fuel storage operations.
- Advising producers and transporters of carbon dioxide in carbon capture, transportation, and sequestration matters.
- Developing and negotiating retail agreements for commercial and industrial customers and retail electric providers.
- Negotiating master trading agreements for power, natural gas, and other energy commodities.
- Assisting with Public Utility Commission of Texas compliance obligations for retail electric providers and power generation companies.
- Performing regulatory and environmental diligence for renewable energy project transactions.
