D 804.697.1429

OVERVIEW

Tiffany's nearly 20 years of law firm experience includes time as a paralegal and legal researcher. This time in the "trenches" provides her with a deep understanding of research services within the greater context of the firm, translating to a commitment to collaborative and innovative solutions. To this end, Tiffany pioneered the firm's Practice Liaison team in 2022 which partners with practice groups to proactively identify and meet their unique needs. As the director of research services, she focuses on connecting attorneys with information and resources to meet their legal research needs.
