Large Accelerated Filer: A reporting company that has a public float of at least \$700 million, has been subject to the periodic reporting requirements of the Securities Exchange Act of 1934 (Exchange Act) for at least 12 months, has filed at least one annual report, and does not qualify as a smaller reporting company under the revenue test.

Accelerated Filer: A reporting company that has a public float of at least \$75 million but less than \$700 million, has been subject to the periodic reporting requirements of the Exchange Act for at least 12 months, and has filed at least one annual report, and does not qualify as a smaller reporting company under the revenue test.

Non-Accelerated Filer: A reporting company that has a public float of less than \$75 million, has not been subject to the periodic reporting requirements of the Exchange Act for more than 12 months, or has not filed at least one annual report.

Small Reporting Company: A reporting company that has (i) a public float of less than \$250 million or (ii) a public float of less than \$700 million (including having no public float) and annual revenues of less than \$100 million. An issuer cannot qualify as a smaller reporting company if it is an investment company, asset-backed issuer,

or a majority-owned subsidiary of a parent that is not a smaller reporting company.

Public float is measured at the end of the company's second fiscal quarter. Any change in filing status takes effect as of the next fiscal year. Thresholds for transitioning between filer status categories are lower than those shown above.

Rule 12b-25 provides an extension of the U.S. Securities and Exchange Commission's (SEC) filing deadline. To extend the filing deadline of a Form 10-K or Form 10-Q, the issuer must file a Form 12b-25 with the SEC no later than 5:30 p.m. ET on the business day after the filing deadline. Upon the filing of a Form 12b-25, the following extensions will apply: 15 additional calendar days to file a late Form 10-K and five additional calendar days to file a late Form 10-Q. If a report is filed within such extension period, the report is deemed to have been timely filed.

Definitive Proxy Statement Due Date

EDGAR filings may be made between 6 a.m. and 10 p.m. ET on weekdays (excluding federal holidays). Filings submitted after 5:30 p.m. receive the next business day's filing date.

2025 FINANCIAL STATEMENTS STALENESS DATES

When financial statements are "stale," they cannot be used in a registration statement being newly filed or declared effective, or in a proxy statement that requires financial statements. If the issuer's financial statements are stale, the issuer must file the most recent required financial statements before the applicable registration statement can be filed or declared effective, or before the proxy statement is mailed. The table below reflects the staleness date, or the last date such financial statements may be used for companies with a fiscal year ending December 31, 2024.

Staleness Date¹ (last date financials may be used)	Financial Statement	
February 14	2024 Q3 financial statements for initial public offerings, "Delinquent Filers" and "Loss Corporations" ²	45 days after fiscal year-end
March 3 ³	2024 Q3 financial statements for Large Accelerated Filers	60 days after fiscal year-end
March 17 ³	2024 Q3 financial statements for Accelerated Filers	75 days after fiscal year-end
March 31	2024 Q3 financial statements for all other filers	90 days after fiscal year-end
May 9	2024 year-end financial statements for Large Accelerated Filers and Accelerated Filers	129 days after fiscal year-end
May 14	2024 year-end financial statements for all other filers	134 days after fiscal year-end
August 7	2025 Q1 financial statements for Large Accelerated Filers and Accelerated Filers	129 days after Q1-end
August 12	2025 Q1 financial statements for all other filers	134 days after Q1-end
November 6	2025 Q2 financial statements for Large Accelerated Filers and Accelerated Filers	129 days after Q2-end
November 12 ³	2025 Q2 financial statements for all other filers	134 days after Q2-end

¹See Reg S-X Rule 3-12.

Special Accommodation for Gap Periods: Staleness dates may not align with Exchange Act reporting deadlines, which can result in a gap during which a registration statement may not be filed or declared effective. However, the SEC typically allows for the filing or effectiveness of a registration statement during gap periods for timely filers (i.e., the issuer has timely filed all Exchange Act reports in the last 12 months). This makes the staleness date the same as the Exchange Act reporting deadline. As a condition to allowing for filing or effectiveness, the SEC may require confirmation that the quarterly report will be timely filed and that there have been no material trends, events, or transactions that arose after the date of the latest balance sheet included in the filing that would materially affect an investor's understanding of the issuer's financial condition and results of operations. A description of these items in the next quarter ordinarily will not suffice. See Division of Corporation Finance Financial Reporting Manual, Section 1220.5.

Note Regarding Foreign Private Issuers: Audited financial statements of FPIs become stale 15 months after the fiscal year end covered by such financial statements, and interim financial statements (covering at least six months) become stale nine months after the end of the period covered by such interim financial statements. Subject to certain conditions and offerings, the 15-month period may be extended to 18 months, and the nine-month period may be extended to 12 months. If financial information for an annual or interim period more current than otherwise required is made available in any jurisdiction, such financial information should be included in the applicable registration statement.

² A "Delinquent Filer" means a registrant that files annual, quarterly and other reports pursuant to Section 13 or 15(d) of the Securities the Exchange Act, but all reports due have not been filed. A "Loss Corporation" is a reporting company that does not expect to, and did not, report positive income after taxes but before extraordinary items and the cumulative effect of a change in accounting principle for (a) the most recently ended fiscal year or (b) at least one of the two prior fiscal years.

³Reflects a deadline falling on a weekend or federal holiday. If the regulatory staleness date falls on a weekend or federal holiday, the staleness date is extended to the next business day.
